O.W.L.S.

An AIA North Carolina Webinar Program

AIA North Carolina's On-Demand Webinar Learning Series

Timely

Architects are busier than ever. Sponsoring an O.W.L.S. webinar is the easiest way to get your brand and message out to our membership of 2500+ architects. These 1.5 hour classes are a perfect way to bring your lunch and learn to the entire state.

Get Your Name Out

Get your CE course in front of 100+ attendees during the live online webinar. Your audience does not end there though! Your course will then be archived and available online to anyone who wants to view it for 12 months in our On-Demand system.

Get Recognition

The class and your recognition as its sponsor stays online for 12 months. Your name will appear for every person who down-loads the class On-Demand and during the live class.

Simple Setup

Easy online tools allow you to present right from your own office, no traveling or lunch logistics required! An AIA NC Staff member will be available as the host to take care of all of your technical needs.

AIA NC Does the Work

AIA North Carolina takes on all of the marketing and setup costs for the class. Your logo and business information will be on all of the marketing materials. On top of that, we also record the AIA CEU hours for you at the end of the course. All you have to worry about is presenting from the comfort of your own desk

Gain Access

Not only do you get to have your brand and message available to our 2500+ members through the webinar and On-Demand library, but you will receive contact information for each person who takes your course.

Want to know more? Contact Maggie Whittemore (mwhittemore@aianc.org) at AIA North Carolina for more information and learn about how you can get your name and message in front of our 2500+ members and licensed architects in the NC area.
